

Quizzo , AI-Powered Exam Builder & Assessment Platform

Quizzo is not just a quiz app; it's a comprehensive tool for educators to create digital and printable exams or quizzes. Versatile platform designed to meet all testing and evaluation needs, whether digital or on paper. It serves two main purposes:

- **Online Quiz Platform:** Users can create, share, and solve interactive quizzes on any topic, compete on leaderboards, and track their performance dynamically.
- **Professional Exam Builder:** A powerful tool for educators to generate printable A4 exam sheets. It utilizes an AI Question Wizard to generate content from text/files and an Interactive Canvas (powered by Interact.js) for drag-and-drop layout customization.

Key Features

-  **AI Question Wizard:** Generate questions (Multiple Choice, Open-Ended, True/False, ...) automatically by uploading documents (PDF/Word), entering topics, or pasting raw text.
-  **Interactive Exam Canvas:** A WYSIWYG (What You See Is What You Get) drag-and-drop builder using [Interact.js](#). Position headers, student info blocks, and questions freely on A4 layouts.
-  **Smart Pagination:** Create multi-page exams with automatic page management and print-ready CSS styling.
-  **Rich Question Types:** Supports various formats including multiple-choice (with adjustable options), fill-in-the-blanks, and classical open-ended questions.
-  **Online Quiz Mode:** Solve quizzes interactively on the web, share them with friends, and enjoy a gamified experience.
-  **Live Leaderboards:** Track your scores, compete with other users, and climb the rankings to see who is the best.
-  **AI-Generated Content:** Instantly create unique online quizzes from any source material for endless practice without manual writing.
